

Connecting Tomorrow's Technology Today

Your premier partner for advanced test fixtures, electronic components, and manufacturing solutions across India and Canada. Bridging innovation with precision.

[Get Started](#)[Explore Services](#)

Our Services

End-to-end solutions for electronic manufacturing, testing, and global supply chain logistics.

Test Fixture Supply

Spare Parts & Components

Comprehensive supply of cutting-edge test fixtures for electronic manufacturing. From prototype to production, we deliver precision testing solutions.

Genuine spare parts for all major test fixture brands. Rapid delivery and technical support to minimize your downtime.

Import & Logistics

Seamless import services for test fixtures between India and Canada. Customs clearance, documentation, and door-to-door delivery.

Factory Partnerships

Direct partnerships with leading electronic manufacturing facilities across India and Canada for competitive pricing and quality assurance.

Technical Consulting

Expert consultation on test fixture selection, implementation, and optimization for your specific manufacturing needs.

Maintenance & Support

24/7 technical support and maintenance services to ensure your testing operations run smoothly without interruption.

Global Operations

Strategic hubs enabling rapid deployment, quality control, and cross-continental supply chain efficiency.

India Operations

Strategic partnerships with leading electronics manufacturers in Bangalore, Chennai, and Pune. Serving as your gateway to Asia's manufacturing hub with competitive pricing and rapid turnaround times.

[Bangalore](#) • [Chennai](#) • [Pune](#) • [Hyderabad](#)

Canada Operations

North American distribution center in Toronto and Vancouver. Providing just-in-time delivery to Canadian and US manufacturers with full customs and regulatory compliance.

Product Categories

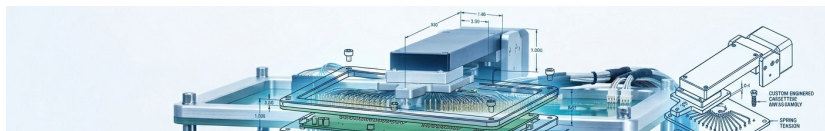

Automated Test Equipment

ICT, Flying Probe, and Functional Test Fixtures

Spare Parts & Components

Probes, Connectors, Adapters, and Replacement Parts

Custom Solutions

Bespoke Test Fixtures Designed for Your Specific Needs

Robots and AI

AI-powered robotic arms, AGVs, and smart quality inspection systems
